

# HotChickenToken

*A token that is not a joke*

HotChickenToken is a local decentralized Meme token dedicated to ecological leadership in the encryption field. HotChicken originated from a popular word on the Chinese Internet, which means "garbage", but it is more witty and humorous than the original meaning.

HotChickenToken seem to be a joke, but in fact it contains witty humor and lightness. It is also the HotChickenToken that I want to bring to everyone, HotChickenToken will develop from the two fields of dex and NFT. Meme Token is in line with the temperament of the Internet. We firmly believe that the power of the encrypted community will make HotChickenToken go further. Bring value to an open, convenient, and equal cryptocurrency field.

**HotChickenToken will become the governance token of HOCHISWAP and HOCHINFT:**

1. HotChicken Decentralized Trading Platform
2. HotChicken NFT Platform

**HotChickenToken:**

**Total amount 100,000,000,000**

**Team: 15%**

**Community: 5%**

The rest will be unlocked in stages

## HOCHISWAP

It is a hot chicken decentralized trading platform. It will be deployed on the ETH chain first, and will be expanded to the eth layer 2 in the future quickly,, Including cardona platform, using HOCHI has a lower handling fee, and using HOCHI, you can get extra income. Governance tokens used for swap, including voting, etc.

## HOCHINFT

HOCHINFT will devote itself to deep cultivation of NFT works in the fields of games, music and painting

## ABOUT US

We are the people who Trust blockChain and believe the DEFI will change the finance status of the world and believe the decentralization.
